Minister Gave A Fine Report

Rev. Andrew J. Sura, Pastor of St. Nicholas Church, Export, Pa.

It is always interesting to listen to the statements of our friends, and especially when one knows that they are shreare and hottest in what they say, added interest is created in a statement coming from one of the best known eleverymen in the United States and who has a large circle of friends in the bundless world as well as his church associations. Such a man is Ber. Andrew J. Sura. formerly of Youkers, N. Y., but now pastor of the St. Nicholas Church at Export, Pa. twenty miles from Pittsburg, who in a recent interview stated. "For the past three years I have been troubled with a very lad case of aggravated stomach trouble. I suffered an injury to my stomach while in honording school and it has bothered me ever since. I have tried various doctors and many medicines without receiving any help until I began the use of Plant Juice. I felt better from the very first day and now, after taking this medicine for only a short time. I am feeling like a new man. I can recommend Plant Juice as a medicine for all people that suffer as I did. I can now eat what I want and enjoy my food. I want to thank you for turnishing such a cemedy that gives such positive results."

Plant Juice is a vegutable tonic extracted from the routs leaves harbe

Final Juice is a vegetable tonic ex-tracted from the roots leaves, barks, fiber and bloom of numerous plants. It is nature's own remedy and works won-ders. It gives almost immediate bene-fits and it leads to permanent relief in practically every case where people suffer as I have outlined. Plant Juke is sold in El Paso at the helly Pollard drug store, where it is being introduced and its merits ex-plainted.—Advertisement.

Miphini Marrujo en Texas & Pacific suit for \$21,000 damages for ceath of husband; filed.

Editor El Paso Herald:

In regard to the discussion in the columns of your paper pertaining to the concerts by army hands, there is one important fact which seems to be entirely overlooked, and that is the opinion of the chief arters.

Whoever is of the opinion that the men comprising the army bands are ments they can get, especially park concerts, is gravely in error.

I can vouch for the misjority of the members of the band to which I belong, that such is not the case.

Randsmen in the army are enlisted to furnish music for military purposes of coexistons. We have our duties which cannot be shirked. They require our constant presence in camp. We have our rehearnals, hikes concerts and other various duties, ending the daily routine with "Retraut," after which our duties are supposed to be at an end and I think the little recreation we may be able to secure for ourselves in our few hours of belsure is well earned and I think the little recreation we may be able to secure for ourselves in our few hours of leisure is well earned and I think the little recreation we may be able to secure for ourselves in our few hours of leisure is well earned and I think the little recreation we may be able to secure for ourselves in our few hours of leisure is well earned and I think the little recreation we may be able to secure for ourselves in our few hours of leisure is well earned and I think the little recreation we may be able to secure for ourselves in our few hours of leisure is well earned and I then the little recreation we may be able to secure for ourselves in our few hours of leisure is well earned and much prefer to appear the proposed to the army bands are married and much perfect to the army bands are married and much perfect to the army bands are married and much perfect to the army bands are married and much perfect to the army bands are married and much perfect to the army bands are married and much perfect to the army b

If we can arrest this promptly, the patient is most light to tyrus in us for the other remedies which will effect a permanent cure. One remedy which I have used largely in my practice is Anti-kammia Tablets. Many and varied are their uses. I have not them to the test on many occasions, and have rever been disappointed. I found them especially valuable for headaches of maintail origin, where quining was being taken. They appear to provent the bad after-effects of the quinine. Anti-kammia Tablets are also excellent for the usedaches from improper digestion; also for headaches of a neuralize origin, and especially for women subject to pains at certain times.
